

## Can you match these names to the correct color description?

To a "non-horseperson" horses may seem to come in just an endless variety of colors. But each color actually has a special name which describes it. Below is a sample list of colors.

A. BAY

B. BLUE ROAN

C. BUCKSKIN

D. CHESTNUT

E. CREMELLO

F. DAPPLE GREY

G. GREY

H. PALOMINO

I. PIEBALD

J. SKEWBALD

K. SORRELL

L. STRAWBERRY ROAN

1. reddish brown coat with same, (or lighter) mane and tail
2. golden coat with white mane and tail
3. white horses are referred to as this
4. black and white patches
5. mixture of chestnut and white hairs
6. reddish brown with black mane and tail
7. pale cream color with cream mane and tail
8. another name for chestnut
9. brown and white patches
10. cream/caramel coat with black mane and tail
11. white or grey with 'rings' of darker grey hair
12. a mixture of black and white hairs

## How well do you know your horse markings?

Listed below are some common horse markings and their descriptions. *Only someone's got them mixed up!!* Can you put them in the right order?

Fill in the number of the correct marking in each box so they match their descriptions.

MARKINGS	TYPE YOUR ANSWER	DESCRIPTIONS
1. STAR	<input type="text"/>	white leg marking to above the fetlock
